QUALITY POLICY

Quality checks are one of the most important steps in manufacturing industry. At Baddi Foils, we take utmost care and give superior importance to quality. The products go through stringent quality checks at various levels and only the best reach the market.

Our company has always been known for its premium quality products, our aim is to upload the position and take it forward with our dedicated efforts.

All the products go through specific test and quality checks. We have tests like :

- ★ Blister Machine Test to make sure that blister packaging is of top quality.
- ★ Stability chamber Test - these are ideal for testing storage, shelf life, packaging and stability.
- ★ Leak test apparatus - Leak test apparatus is used to test packing and integrity of blister, pouches and tablet sachets.
- ★ We make sure that all our products go through leak apparatus test.
- ★ FTIR - We use highly advanced FTIR method which uses infrared light to scan test samples and observe their chemical properties.
- ★ With Baddi Foils you get complete guarantee for the following :
 - Deeper cavities produced while forming of Alu Alu.
 - De-lamination resistance under stability conditions.

We provide verified certificate of analysis (COA) to all buyers - authenticating supplies. Batch records and samples are available for up to 2 years. Each aspect is taken care of and the entire production and manufacturing process is done under expert supervision. At Baddi Foils, we take pride in saying that you will never have to compromise on quality.

- ★ Quality raw material used, of reputed companies.
- ★ Control of quality at each stage by quality management system.
 - Incoming - Testing of raw material on arrival
 - In process - Online checking of material produced
 - Stringent quality checks at all nodal points of production
 - Final Inspection of products before dipatch
- ★ Implementation of latest quality system and laboratory equipments.
- ★ Focus on man power training.

OUR STRENGTH

The company had set up a state of the art facility to convert Aluminium Foils & Manufacture Aluminium ROPP Caps under the name & style of Baddi Foils Pvt. Ltd. in the Hill State of Himachal Pradesh at Baddi, in the Year 2005 especially to cater the packaging requirements of pharma units located in the state of H.P. and U.K. which is operational since April 2006. BFPL's Baddi plant is spread over an area of more than 2.00 Acre of land in the hill state of H.P. With a total coverage area of approximately 45000 sq. Feet, the plant is divided in two separate blocks one for Foil Conversion and the other for Sheet Metal Fabrication and Flip Off Seals.

Bhiwadi Unit of the Company besides to caters the need of Baddi Unit & Print Man for their raw material requirements also have its own roto gravure-printing unit too having 5 Roto Gravure Printing Machines. This unit is equipped with latest Plant & Machinery consisting of 1000mm High Speed VMCH Coater & 1000mm Poly Laminator to manufacture Blister & Poly Laminated Foils respectively. This unit can manufacture more than 650MT of Blister & Pharma Foils per month. This unit also sells its products to various Pharma Foil Converters.

- ★ Our state of the art units situated in Baddi, Bhiwadi & Sikkim have the Annual combined capacity to convert 10,000 Metric Tons of Aluminium Foils, 6,000 Metric Tons of Cold Form Foils(Alu-Alu), Producing 420 Million Pieces of ROPP Caps & Seals, 600 Metric Tons of Flexible Laminates and 6000 Metric Tons of Blown Films.
- ★ Multi Locational & Diversed Product Range - Sister concerns Print-N-Wrap, Printman, BFPL Inc & BFPL Flexipack, all of them catering to pharmaceutical and food industry for their packaging needs.
- ★ In-house metal printing for ROPP caps.
- ★ Print Man is dedicated venture for catering to the needs of Mankind Pharma Ltd.
- ★ Firm tie-up of group with metal producers like Hindalco for our raw material requirements.
- ★ All locations GMP 15378 certified
- ★ Approved Vendors for all major Pharmaceutical Companies of India.
